

Children Are Our Priority

We strive to provide a community-based approach to living well while retaining personal, individualized care for individuals and families with developmental delays and special needs from infancy and beyond.

Early Intervention Services

Specialists work with families to design, implement or modify an Individualized Family Service Plan (IFSP) or Family Service Plan (FSP), educational blueprints reflecting the desires of the family and recommendations of other professionals such as physicians and therapists to see your child successfully transition to school.

Date Time

“Your Early Interventionist can work with you at home, daycare, or any natural environmental setting”

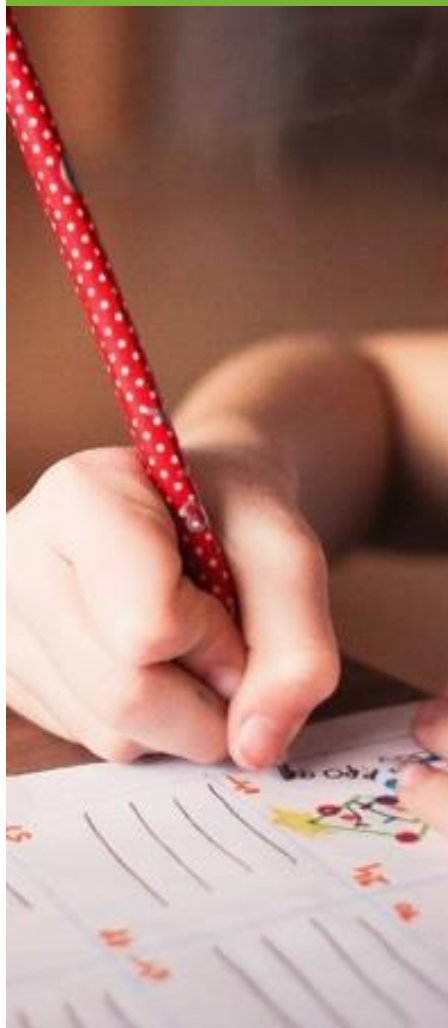

RESTORE HEALTHCARE PEDIATRIC THERAPY

Early Intervention Services

Special Instruction

Cognitive, social-emotional, and self-help skill delays, as well as fine motor, gross motor, and communication skills are addressed with the goal of raising your child's performance to an age-appropriate level.

Therapy

Professionally licensed therapy services are available for those children who need intensive skill remediation. Private insurance, Medicaid, BabyNet, and CDSA may cover the costs of these services.

Getting started

Need a comprehensive developmental assessment?

- Communication
- Behavioral Management
- Motor Skills
- Interaction with others
- Physical Activity

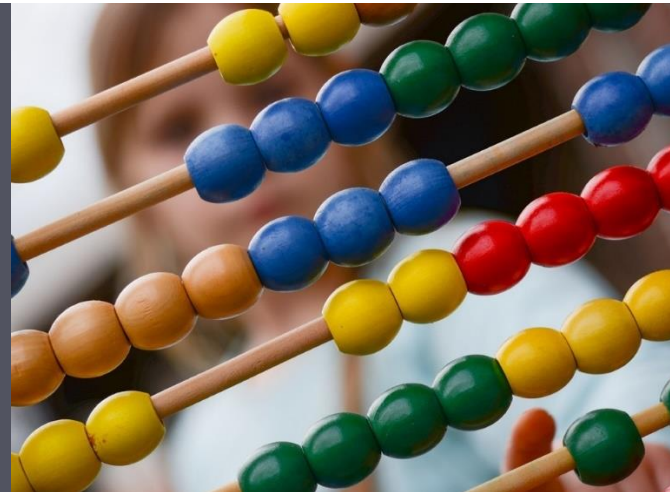

Date
Time
Location

We compile the necessary information to facilitate an application for free government services designed to assist the developmentally-delayed child and their families.

Why choose Us:

- We understand trust has to be earned and caring for our clients is a privilege
- Highly trained, dedicated, and passionate personnel
- Flexible appointment times
- Locations throughout NC and SC
- Around since 2008

“Your interests Are Our Interest. We are dedicated to bringing each and every one of our clients the best experience possible”

Would your child benefit from:

- An early education plan to address developmental delays?
- Family/caregiver training by specialist?
- Individualized early childhood educational instruction with assistance with school transition?
